[Junos Binary Image For Gns3 16](#)

The screenshot shows the 'Preferences' dialog box in GNS3, specifically the 'QEMU VMs preferences' section. The 'QEMU' category is selected in the left sidebar, and the 'QEMU VMs' sub-category is highlighted. The main area displays settings for a VM named 'MikroTIK-6.22'. The settings are organized into sections: General, Hard disks, Network, Optimizations, and Additional options. The 'New' button at the bottom is highlighted with a red box.

Section	Property	Value
General	VM name:	MikroTIK-6.22
	Server:	local
	Memory:	128 MB
QEMU binary:	qemu-system-i386w.exe	
Hard disks	Disk image (hda):	C:\Users\install\GNS3\images\QEMU\mikrotik6-22.img
Network	Adapters:	5
	Type:	e1000
Optimizations	CPU throttling:	disabled
	Process priority:	normal
Additional options	Options:	-nographic
